

The UC San Diego Science Project Presents Teachers Teaching Teachers:

“Interactive Google Classroom Demonstration: Starting the School Year with Distance Learning”

Wondering how to use Google Classroom with science teaching and learning? Using Google Classroom, Samantha Stewart will take K-12 teachers through strategies that will provide tools, ie Jamboard, to start the Distance Learning 2020-2021 school year.

Samantha is a Middle School Teacher in San Marcos Unified, San Diego County. She will present lessons that she has implemented in her NGSS classroom such as developing class Norms, setting a daily goal, observing a phenomenon, and developing an initial model. Participants will be able to interact with each other and share ideas about classroom implementation.

NOTE: Once you register, you will be sent a Google Form to register on Google Classroom with the code supplied. This will permit you to participate as a student in a mock classroom.

Dates: August 17, 18, 19, 2020

Time: 4:00 pm – 5:00 pm

Cost: \$35.00

Register for this awesome opportunity:
